

PROGRAMME PROCESS

Step 1 – Screening & Interview Process

All candidates will go through a screening and interview process in order for our team to select the most suitable candidates we feel will benefit from the programme.

Step 2 – Get trained and qualified - 100 hours of study

If successfully selected, candidates would need to take part in our distance learning course in order to obtain the required qualifications. This process can take up to 100 hours to complete, however, this varies for each candidate enrolled.

Step 3 – Career Support, CV & Covering Letters

Once candidates have completed their training, they will receive guaranteed career support from our career specialists. This will involve any necessary measures required to increase their employability. At this stage, candidates would receive support with their CV and covering letter.

Step 4 – Guaranteed Work Placement

This is a guaranteed opportunity for all successful candidates. Our team of specialists will assist candidates with securing remote work experience which can last for up to 6 months. Candidates will receive a professional reference upon completion of the work placement.

Step 5 – Job Interviews with potential Employers

With the required skills and know-how, you can be assured that our experts will do their best to win you interview opportunities within the sector. Once candidates have obtained recognised qualifications, experience along with a professionally drafted CV and covering letter, we are confident that you will be successfully selected by potential employers.

Step 6 – Obtain an entry-level position £20,000 – £25,000*

With high success rates in a growing industry, we are constantly developing relationships and partnerships within the industry. Our main focus in this process and of the programme is to assist our candidates in finding a permanent role within the sector.

Successful candidates have obtained trainee positions with a starting salary ranging between £20,000 – £25,000 per annum.
